

IMAGETREND®

ELITE™ CRITICAL CARE

Combine ePCR and critical care capabilities into one powerful application. Designed for speed and accuracy, services are able to quickly generate complete, real-time electronic critical care and patient care reports in the field.

Critical Care Specific

- Specialized fields for air-related and hospital-to-hospital transports
- Neonatal and high-risk OB data collection fields
- Timeline™ view for a patient-centric look at care and vitals over time
- En route blood gases and hospital labs collection
- Supports mapping, GPS and wireless connectivity

Save Time

Your patients require all of your attention. You don't have time to focus solely on documentation - make data entry fast and easy with quick select Dynamic Power Tools™ such as the fishbone diagram, data entry shortcuts and repeat patient information. Knowing the quality of entered data with real-time validation on scene and default selection helps minimize errors.

Integrations

- CAD import to save time and improve data accuracy
- EKG monitors to back up your observations
- Billing Bridge®, ImageTrend Revenue Services and third party billing services for revenue recovery
- Hospital Hub™ for fast, accurate advance notification to receiving ED
- Health Information Hub™ for connectivity to pre-hospital, hospital, clinical and HIE records

Report and Analyze

ImageTrend's powerful reporting database gives you the flexibility to quickly and easily create dynamic reports. Monitor key performance indicators (KPIs), set up alerts or triggers, or integrate multiple data sources to reveal the story your data holds.
