

SLATE™

ImageTrend Slate™ is a new, standalone operations management solution that meets the needs of all sizes of departments and agencies. Slate will optimize and streamline your operations and can also be integrated with ImageTrend Elite™ for seamless, bidirectional updates.

Powerful, Flexible Scheduling

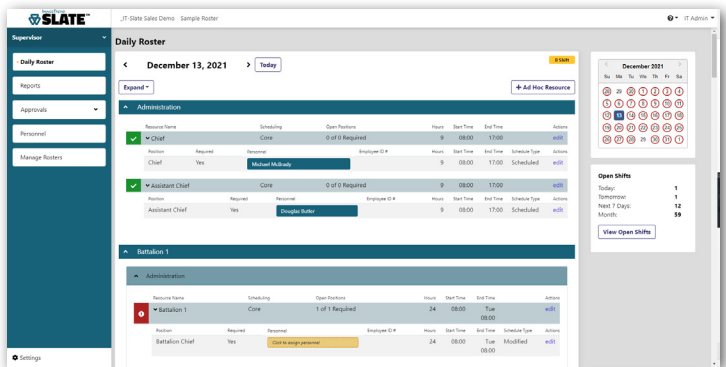

Engineered for flexibility, Slate does not limit you to one profile or just a few workflows. Multiple schedule types and sub-groups can be utilized in a single solution with workflows that are defined by your department. You get unlimited:

- Time off requests
- Shift Trades
- Work Requirements
- Work Conditions
- Seniority Lists
- Fill Rules

Ad Hoc Personnel

Empower your department to track and schedule non-employee personnel such as interns, ride-a-longs, students and others you want to add to your roster.

Direct Shift Award

Award open shifts to the most appropriate or qualified personnel based upon department defined fill rules.

SLATE™

Standalone or Integrated with Elite

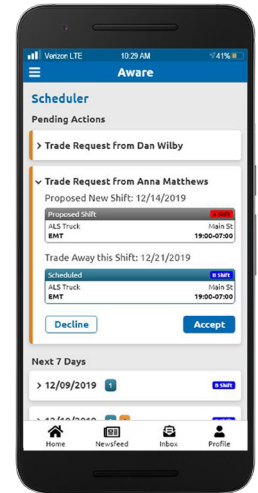

Slate is an ImageTrend-hosted solution that can either integrate with Elite or work independently. Elite and Slate feature a unique bi-directional integration, which means you'll enjoy a single sign-on experience with vehicles and other information automatically populating in Slate from Elite. This streamlines implementation and makes it easier to rapidly deploy..

Works with Aware™ App

End users can view and manage their schedules from their own smartphone too, using ImageTrend Aware – a mobile app that is included with Slate. With optional Slate text/SMS, you will also have the ability to send individual or bulk text/SMS notifications and alerts to personnel.

Easy to Use

Slate's intuitive design makes it easy for either administrators or end users to learn and manage their schedules quickly. Proprietary roster-building templates eliminate redundancy while maintaining flexibility. Easily transform and modernize your operations.
