

IMAGE TREND® ELITE™ FOR CRITICAL CARE

Combine ePCR and critical care capabilities into one powerful solution. Designed for speed and accuracy, services are able to quickly generate complete, real-time electronic critical care and patient care reports in the field.

Truly Connect Health Information

Keep it Simple

Designed for ease of use, speed and accuracy.

Critical Care Specific

Collect the data you need most, when you need it.

Specialized Transport Fields

Specialized fields for air, ground, interfacility or scene transports.

Be Efficient

Import data collected on your monitor quickly and easily.

Quick Select Options

Dynamic Power Tools™, such as the fishbone diagram, and other data entry shortcuts speed up documentation and help minimize errors.

Pre-populate Data

Pre-populate run reports with CAD data.

Integrations

- CAD import to save time and improve data accuracy
- EKG monitors to back up your observations
- Billing Bridge®, ImageTrend Revenue Services and third party billing services for revenue recovery
- ImageTrend Hospital Hub™ for fast, accurate advance notification to receiving ED
- ImageTrend Health Information Hub™ (HIH) for connectivity to pre-hospital, hospital, clinical and HIE records

IMAGE TREND®

IMAGETREND® ELITE FOR CRITICAL CARE

Critical Care Specific Fields for Elite

Specialized fields for air-related and hospital-to-hospital transports

Neonatal and high-risk OB data collection fields

Timeline™ view for a patient-centric look at care and vitals over time

En route blood gases and hospital labs collection

Supports mapping, GPS and wireless connectivity

Save Time

Your patients require all of your attention. You don't have time to focus solely on documentation - make data entry fast and easy with quick select Dynamic Power Tools™ such as the fishbone diagram, data entry shortcuts and repeat patient information. Knowing the quality of entered data with real-time validation on scene and default selection helps minimize errors.

Report and Analyze

ImageTrend's powerful reporting database gives you the flexibility to quickly and easily create dynamic reports. Monitor key performance indicators (KPIs), set up alerts or triggers, or integrate multiple data sources to reveal the story your data holds.
