

# Modern Credentialing & Compliance at Scale

## LICENSE MANAGEMENT™

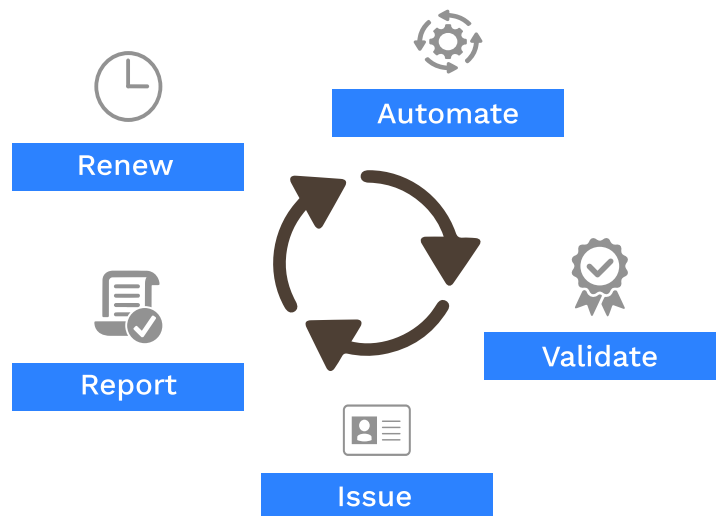

Modernize your licensing, certifications, credentials, and compliance process across regulated workforces to minimize administrative burden and maximize applicant output. ImageTrend License Management™ applies automation to your credentialing workflow from hire to retire with automation, visibility, and audit ready controls for a more efficient system. Transform your state or agency's licensing practice from paper to a full-service, online platform that can be accessed anywhere at any time.

### A COMPREHENSIVE SOLUTION

#### Highlights

ImageTrend License Management has a wealth of features for the management of licensees.

- **Reduced Administrative Burden**  
Replace paper based and fragmented processes with streamlined digital workflows.
- **Improved Compliance & Oversight**  
Ensure the right people are in the right roles with the right credentials—at all times.
- **Better Experience for Providers & Staff**  
Faster applications, clearer requirements, and real-time visibility into status and next steps.
- **Scales with Your Organization**  
Proven across statewide implementations and complex regulatory environments.

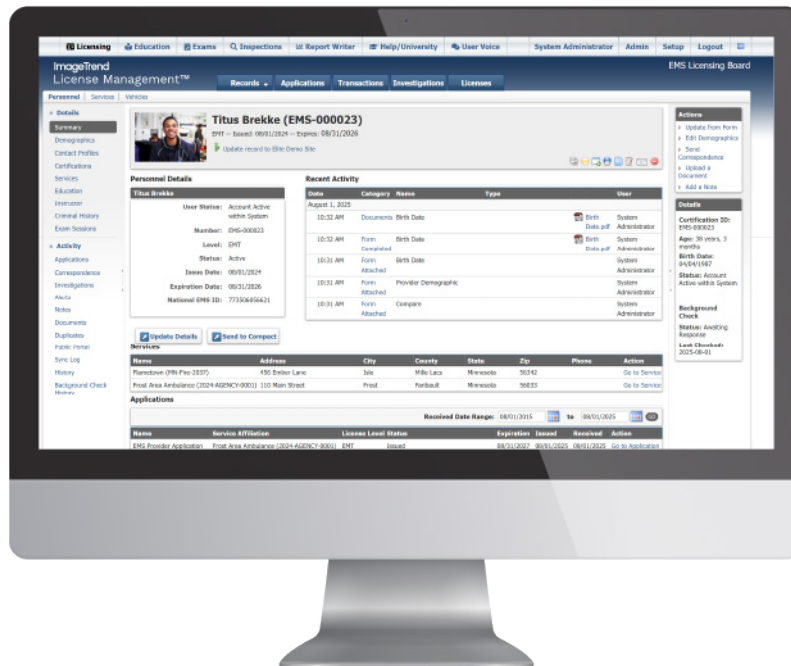

License Management doesn't just issue credentials—it provides ongoing assurance that licensed individuals and organizations remain qualified, compliant, and ready to serve. By centralizing data and automating oversight, agencies gain confidence, transparency, and operational resilience.
