

Faster, Easier, Hands-Free  
Documentation for EMS

# ELITE SOFTWARE PLATFORM WITH AI ASSIST

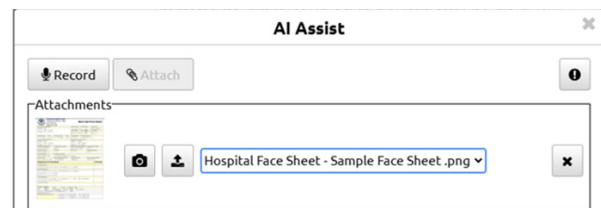

Faster EMS documentation is here. Elite's AI Assist helps EMS crews quickly capture patient information hands-free, so they can focus on what matters most. Dictate key details like demographics, primary complaint, and vitals in real time, and use image capture for facesheets, medication labels, and more. Enter more data, quicker with the support of Elite's AI Assist feature within your software.

## Benefits of Elite's AI Assist

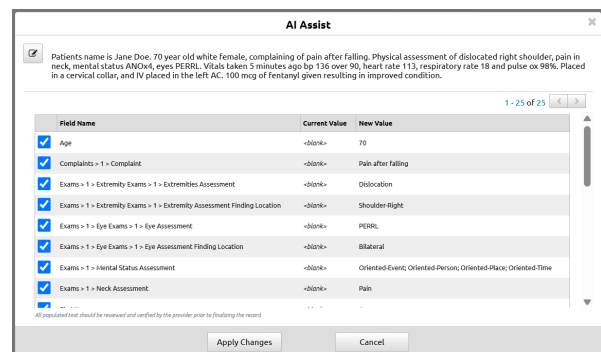

- **Hands-Free Voice Dictation:** Quickly dictate patient demographics, primary complaint, medical history, vital signs, and narrative with voice-to-text.

- **Smart Image Recognition:** Capture data from facesheets, blood packaging, medications, and IDs instantly.

- **Faster ePCR Completion:** Reduce documentation time and improve accuracy.

By minimizing manual data entry, EMS providers can ensure hospitals receive accurate, timely information. Spend less time on paperwork and more time on patient care. ImageTrend can help your agency streamline ePCRs.
