

ImageTrend Elite - Certified System Administrator Course

COURSE OVERVIEW AND BENEFITS

Overview

This course provides system administrators with a comprehensive overview of the Elite System. The primary objective of this course is to ensure that new system administrators become thoroughly acquainted with the Elite system. Additionally, it serves as a valuable refresher for clients who have undergone implementation in the past.

Course Highlights and Benefits

- Gain a comprehensive overview of the entire Elite platform.
- Discover the range of configurations available to tailor the system to your needs.
- Revisit key modules to enhance functionality and optimize system usage.

Course Structure

- Virtual Learning Center: Convenient, course curriculum accessible on-demand.
- Knowledge Assessments: Validate proficiency and certification as a System Administrator.

Limited-Time Offer: Complimentary Enrollment in the Certified System Administrator Program!

We're excited to announce a special promotion for our valued customers! From **July 1 through December 31, 2025**, your organization has the opportunity to enroll one system administrator in the ImageTrend Certified System Administrator (CSA) Program — at no cost.

This is your chance to:

- Empower your team with expert-level knowledge of ImageTrend solutions
- Strengthen your agency's system administration capabilities
- Maximize your investment in ImageTrend technology

Here's how it works:

- Enroll a System Administrator between July 1 and December 31, 2025
- They'll have 6 months to complete the certification
- After certification, ongoing access to training materials and updates will require annual renewal

This is a limited-time opportunity to build internal expertise and elevate your agency's use of ImageTrend tools — all at no cost for the initial certification.

Don't miss out! Contact your ImageTrend representative or visit vlc@imagetrend.com to get started.
