

# DISCOVER WHY IMAGETREND'S FIRE AND EMS SOFTWARE IS A G2 LEADER!

**4.2/5 STAR  
RATING**

**TOP PERFORMER IN FIRE  
DEPARTMENT SOFTWARE  
& EMERGENCY MEDICAL  
SERVICES SOFTWARE**

**40+ REVIEWS  
ON G2**

### End user data solutions

“ImageTrend’s software is extremely intuitive as an end-user and additionally very easy to customize to meet my specific needs. It allows me to easily communicate with the 103 EMS agencies I administer to. It keeps historical data at my fingertips and provides me with current, accurate data for decision-making.”

-Michael G., Section Chief

### Excellent Solution for EMS and Fire

“I love ImageTrend for their software offerings to the EMS/ Fire industry. We use ImageTrend Elite for data capture of EMS and Fire department runs and that data is then exported into ImageTrend Billing Bridge for ambulance transport billing. Great price point for the service. Highly recommend!”

-Jai W., Division Chief – EMS/Paramedic

### The Best ePCR Platform!

“Simply put, most ePCR’s all contain the same elements, and the UI is generally very similar. Where ImageTrend is different is the platform and the technology behind the platform. The degree of customization is unmatched in the industry and with a little creativity it can be used in a variety of ways to track and manage virtually any EMS element.”

-Jason L., Chief Development Officer

# MORE REASONS WHY IMAGETREND'S FIRE AND EMS SOFTWARE IS A G2 LEADER!

ImageTrend 

## Efficient Firehouse Replacement, All-in-One Solution

"I really like how ImageTrend is an all-in-one system that handles inspections, EMS and fire reports, and hydrants. It's been great having just one system for all our fire department tracking and inventory needs."

-Spencer S.

## Image Trend provides custom solutions to improve department data flow

"ImageTrend has streamlined our data flows for incident and training reports, which has greatly benefitted our fire department."

-Mimi H.

## Effortless EMS Reporting with ImageTrend

"I like the ease of use of ImageTrend, which helps me with EMS reports. I rarely have problems with the application... I use ImageTrend for EMS reports, and it handles report issues well."

-Brandele O.

## Consideration and acknowledgement to adjust customer needs

"For our agency, ImageTrend centralizes incident, patient care, dispatch, and operational data that would otherwise live in multiple disconnected systems. This reduces duplicate data entry, supports regulatory compliance (including state and federal reporting requirements such as NERIS), and creates a single source of truth for incident documentation and performance analysis."

-Barrington Fire
