

UNIFIED ANALYTICS

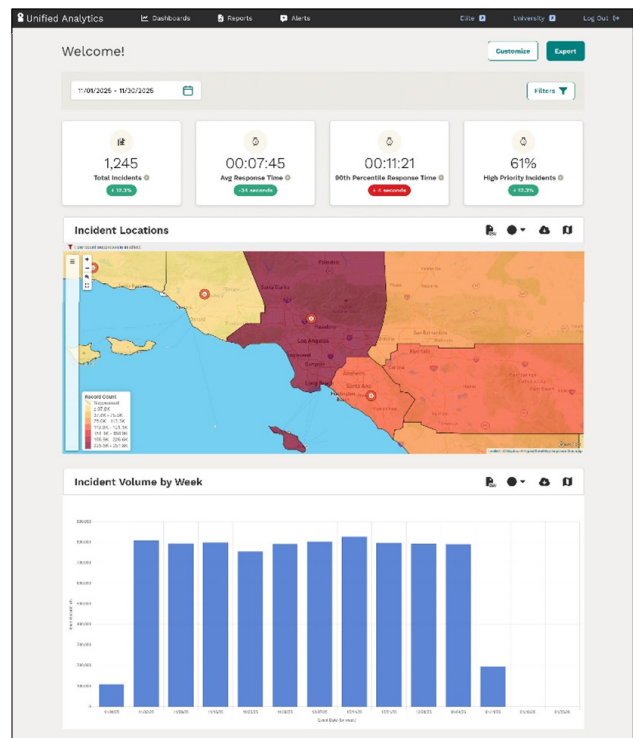

Powering Stronger Performance, Smarter Teams, and Better Patient Outcomes

Unified Analytics is ImageTrend's single, unified hub for all your analytics tools—bringing every product data set together in one place. It enables seamless workflows across analytics and data access, all powered by a modern, scalable architecture built to grow with you.

What You Gain

- **A best-in-class analytics experience**
Access insights seamlessly across all products without switching tools or losing momentum.
- **Deeper, connected insights**
Bring together operational, clinical, and prevention data to uncover patterns and opportunities that siloed systems simply can't reveal.
- **More value from your investment**
Benefit from flexible, transparent options that align analytics capabilities to your needs and growth.
- **Insights for every user**
Empower everyone—from casual users to advanced analysts—with the tools & access they need to succeed.
- **A future-ready foundation**
Step into the next generation of analytics, where you can ask questions in plain language & get meaningful, data-driven answers.
